STONE & MARBLE CLASSIC

STONE TYPE & SIZES

Each stone sheet is uniquely handcrafted from real stone types, including Slate, Quartzite, Marble, and more. Our collection is divided into five distinct stone categories, each showcasing natural beauty and durability. Available sizes range from 300x600 mm up to 3050x1220 mm, with custom dimensions also offered to suit specific project needs.

1. SLATE

Our slate stone is naturally soft and visually striking, with ever-changing patterns that make each sheet truly unique.

2. QUARTZITE

Our quartzite stone is strong and naturally hard, featuring a unique shine that brings a special pattern of beauty, with natural variations that create a uniquely elegant look in every sheet.

3. MARBLE

Marble is celebrated for its stunning pattern of natural beauty, with natural variations that create a uniquely elegant look in every sheet.

4. SANDSTONE

Sandstone is a slightly rough, grainy material made from lustrous, beautiful patterns, adding a natural charm to each stone sheet.

5. GRANITE

Granite is exceptionally strong and hard, with a lustrous finish that adds males to beauty to any surface.

6. LIMESTONE

Limestone is naturally soft and smooth, with a fine, lustrous texture that makes it a versatile material for various purposes, from elegance and classic charm to any surface.
